## On-Key Portable Karaoke System

Singing Aid for the Tone Deaf to the Pro  
Price \$129

By Christina Johnson

We all have those moments where some random Britney Spears song comes on the radio and for whatever godforsaken reason we feel compelled to actually turn it up full blast and sing along – off key, of course. As embarrassing as it can be, this guilty pleasure sneaks its way into all of our lives more often than we'd like to admit.

But why not embrace it? The On-Key Portable Karaoke player does just that and actually improves on the sometimes deafening karaoke tradition. With features like "Pitch Correction" and "Voice Transform," this handy little electronic device will make you sound as good as you possibly can. It provides tempo and key control, and even makes it possible to have harmonies or duets when you sing alone.

Instead of getting beer spilled all over you at a crowded hole-in-the-wall karaoke bar downtown, you can enjoy all of the pleasures of karaoke right from your own living room. Skip the \$10 cover charge and two-drink minimum and host your own soireé.

The On-Key system comes with all of the necessary items to plug the microphone right into any television set and have song lyrics flow across the screen in no time. You can have up to 150 songs stored on the portable system at any one time, enabling you to choose from a lengthy list of performance options. From your favorite rock 'n' roll classics, to the most cheesy '80s pop radio hits, the night can go in any direction you want it to.

much attention to its many features. More serious singers can appreciate the professional studio effects that the system offers. Whether you throw a fun and quirky karaoke party, or just keep the player handy in case of a spontaneous burst of singing energy, the On-Key karaoke system is sure to initiate an entertaining evening.
