TECHNOLOGY GUIDE

The Digital Holiday Shopping List

Your Own American Idol

It looks like a microphone with extra buttons, but IVL Technologies' \$80 On Key Karaoke Player is an all-in-one fun machine with 20 built-in pop and traditional songs--more available online. Connect the mike to a TV and sing along as highlighted words pop up on screen. Can't sing on key? Hit the Auto-correct button. Another button adds acoustic effects.

- [Steroids for Your Headphones](#)
- [Silver Dollar Music](#)
- [DVD and TV on a Notebook](#)
- [Never Get Lost Again](#)
- [VHS to DVD Easily](#)
- [Retro Games, Retro Prices](#)

One thing we'd change: The silly background photos on the TV screen have nothing to do with the song that's being played.
